THE HUNGARIAN GENERATOR

MAAG by LOGSOL

MAAG 10PEMG

GENSET

Standby Power	kVA	10
	kW	8
Prime Power	kVA	9
	kW	7
Soundproof canopy [mm]	W x L x H	900x2100x1320
Open version [mm]	W x L x H	900x1400x1145
Fuel tank [liter] -base	diesel	82
Net total weight with canopy*	kg	490
Net total weight open version*	kg	310
Noise [in canopy design]	dB(A)	71
Control panel		MGD 500L MK2

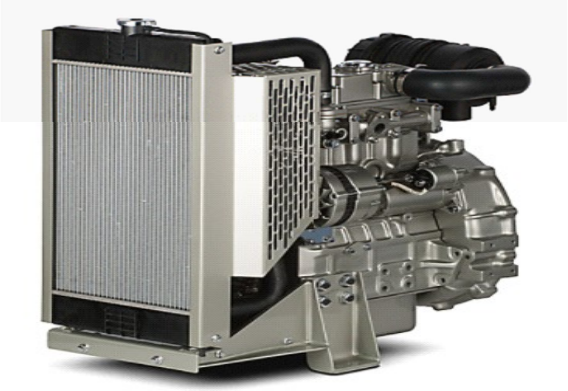
** Including lubrication oil and coolant fluid, excluding fuel*

[info] Genset characteristics:
Displays:
Phase currents (A), Phase voltages (V), Line voltages, Integrated frequency and speed display.
Cooling water temperature, operating hours counter, oil pressure indicator.

[info] AMF Genset control:
Standard voltage-free indications: genset running, high water temperature, low oil pressure, low battery voltage.

[info] Prime power:
Prime Power is the maximum power accessible at the variable load for an unlimited number of hours per year in a variable load setting. It is not advisable that the variable load exceed 70% average of the prime power rating during any operational period. If the engine is run-ning at 100% prime power, yearly hours should not exceed 500. Overload situations should be avoided however a 10% overload capability is available for a 1 hour period within a 12 hour cycle of operation.

[info] Standby power:
Standby Rating for a standby engine should be sized for a maximum of 70% average load factor and roughly 500 hours per year. Stand-by power ratings should never be applied except in true emergency outage situations. With standby rated generators there is no overload capability built into



MOTOR

Manufacturer		PERKINS
Model		403A-11G1
Number of cylinders		3 in Line
Cycle		4
Aspiration		Natural
Cooling system		Water
Cooling circuit capacity	liter	5,2
Oil capacity	liter	4,9
Injection		Indirect
Speed/Frequency	rpm/Hz	1500/50
Fuel consumption	100%	3
	75%	2,3
	50%	1,7

ALTERNATOR

Manufacturer		MAAG
Number of Phase		3
Power factor		cos φ 0,8
Frequency [Hz]		50
Output voltage [VAC]		230 / 400 V
Protection		IP 23
Connection type		Star
Standby power	[kVA]	15
Insulation class		Class H
