

GENSET

Standby Power	kVA	90
	kW	72
Prime Power	kVA	80
	kW	64
Soundproof canopy [mm]	W x L x H	1000x2880x1680
Open version [mm]	W x L x H	1000x2200x1410
Fuel tank [liter] -base	diesel	139
Net total weight with canopy*	kg	1 460
Net total weight open version*	kg	1 260
Noise [in canopy design]	dB(A)	71
Control panel		MGD 500L MK2

[info] Genset characteristics:

Cooling water temperature, operating hours counter, oil pressure indicator.

[iinfo] AMF Genset control:

Standard voltage-free indications: genset running, high water temperature, low oil pressure, low battery voltage.

ALTERNATOR

Manufacturer		STAMFORD
Number of Phase		3
Power factor		$\cos \varphi$ 0,8
Frequency [Hz]		50
Output voltage [VAC]		230 / 400 V
Protection		IP 23
Connection type		Star
Standby power	[kVA]	90,8
Insulation class		Class H

OTHER INFO

web: www.maaggenerator.com

[i]nfo Prime power:

Prime Power is the maximum power accessible at the variable load for an unlimited number of hours per year in a variable load setting. It is not advisable that the variable load exceed 70% average of the prime power rating during any operational period. If the engine is running at 100% prime power, yearly hours should not exceed 500. Overload situations should be avoided however a 10% overload capability is available for a 1 hour period within a 12 hour cycle of operation.

[i]nfo Standby power:

Standby Rating for a standby engine should be sized for a maximum of 70% average load factor and roughly 500 hours per year. Standby power ratings should never be applied except in true emergency outage situations. With standby rated generators there is no overload capability built into the units.

MOTOR

Manufacturer		FPT IVECO
Model		NEF45TE1F.S551
Number of cylinders		4 in Line
Cycle		4
Aspiration		Turbocharger - aftercoolers
Cooling system		Water
Cooling circuit capacity	liter	18,5
Oil capacity	liter	12,8
Injection		direct
Speed/Frequency	rpm/Hz	1500/50
Fuel consumption	100%	18,8
	50%	11,5

SAFETY: Do not smoke while using this product.
